Jennifer et al – attached are my first cuts at responding to the interagency comments on the EPA PFAS plan.

# Deliberative Process / Ex. 5

1. **Summary response to comments.** This is a compilation of comments from all agencies, ordered approximately to match the Plan. ORD was asked to comment on some of the yellow rows, usually those with ORD at the top of the box in the third column. Edits in track changes in third column are mostly mine (though some track changes existed when I received the document).

2. **Revisions and edits to the Plan text.** This is a very messy document, with comments and edits from many different people, both interagency and OW, so is hard to read. I added some track change edits as requested, see the top of the document for the color of my edits – it is blue on my screen, might be a different color in yours.

Please let me know if you have comments, I will be continuing to work on this through the day as I get more information.
